| Period of Performance | 30 June 2019 - 29 June 2020 w/4 opt yrs |

USCG Experienced Team

| | |
|---|---|
|  | <p>D&G is an ISO 9001:2015 certified SDVOSB that has supported DHS, USCG, and DoD with logistics, program management, systems engineering, fielding, sustainment and property accountability since 2007. Our USCG experience includes support to CG-6, CG-9, CG-532, TISCOM and DOL-44 in acquiring, deploying and sustaining over 1100 communications and Radiological and Nuclear (RAD/NUC) systems. Prime Contractor for Defense Logistics Agency \$18M BPA with 21 Call Orders supporting DLA J3, J6, TRANSCOM, NAVAIR, CASCOM and OSD in the areas of Weapon Systems Sustainment, Distribution, and Performance Based Logistics. D&G's recognition for super performance includes the USCG Small Vessel Standoff Detection (SVSD) Program awarded DHS Program Manager of the Year in 2015.</p> |
|  | <p>DLS Engineering (DLS) is a multifaceted services firm established in 1995 with proven USCG expertise in professional engineering and logistics services. We have supported enterprise and logistics services logistics centers of excellence for C4ITSC, C3CEN, aviation and surface (ALC and SFLC), providing depth and breadth of USCG knowledge. Our past performance encompasses all the elements of Integrated Logistics Support (ILS), supply chain and financial management, and we have recent logistics experience on major USCG systems like, Core Technologies, RMS 21, ISSO, National Security Cutter (NSC) intelligence equipment, Patrol Boat Product Line, Small Boat Product Line, and business operation divisions, as well as CG-LIMS, ALMIS, and VLS.</p> |
|  | <p>Goldbelt Falcon, LLC (GbF) is ISO 9001:2015 certified and CMMI-DEV Level 3 GbF is a wholly owned subsidiary of Goldbelt Inc., an Alaskan native-owned corporation (ANC), headquartered in Chesapeake, VA. GbF has a proven record of success in providing engineering logistics services to the USCG Logistics Service Centers including the C4ITSC, ALC and APO. GbF has supported the USCG for more than 10 years and has received outstanding CPARS for our services. GbF is currently supporting Navigation Core Technologies in configuration management, Project Management, return and reutilization and inventory control. GbF provides instructor support for the USCG surface community on navigation technology and principles. GbF provides Computer Aided Drawing (CAD) support for the entire C4ITSC. GbF provides logistics planning and development activities to include requirements development, technical evaluations and crafting plans and processes for the execution of logistics products to the sustainment community in support of CG-9 Asset Project Office (APO) for the Polar Security Cutter (PSC).</p> |
|  | <p>Goldbelt C6 (Gbc6) is an ISO 9001:2015 certified company whose core competency is the integration of C6ISR systems (Command, Control, Communications, Computers, Cyber-Defense and Combat Systems and Intelligence, Surveillance, and Reconnaissance) for DHS and DoD. Gbc6 is a current USCG prime contractor with extensive experience providing services and support to Coast Guard customers to include C3CEN's CGC2, VTS, Sea Commander and Seawatch programs, C4ITSC's NSC Remediation program, and Aviation Logistic Center (ALC) operations. Gbc6 also provides logistics support to the Dept. of State Office of Logistics, Acquisitions Management, and Program Management and Policy, to include LEAN Six-Sigma analysis, category management consulting, program management and strategic sourcing.</p> |

**Our Support
C3CEN**

On TEDSS, we provide personnel and mgmt. support for wide-ranging logistics and engineering requirements.

Task Areas:

- Maintenance Planning
- Configuration Management
- EILSP/TCTO/RCM/MPC/CAD
- Program/Project Management
- Full Lifecycle Logistics

**Our Support
USCG Logistics**

Supporting Aviation, Surface, Acquisition logistics applying detailed knowledge of USCG systems, processes, and culture.

Task Areas:

- Metrics Management
- Business and Financial Systems
- Property Management
- Supply Forecasting
- Program/Project Management

**Our Support
TISCOM**

Accelerated COTS systems in support of achieving USCG ATO. Aligned configuration to USCG and DHS TRM /Enterprise Architecture.

Task Areas:

- Data Integration
- Configuration Management
- Program Management
- Maintenance Planning
- Life cycle Logistics
